DAY IN AND DAY OUT
VOLVO PERFORMS.

Getting the job done on time requires performance and reliable uptime. That's why contractors turn to **Volvo Construction Equipment** for exceptional versatility, productivity, durability and performance. The full line of construction equipment offered by Volvo includes pipe layers, skid steer loaders, wheel loaders, excavators, articulated haulers, tracked forestry carriers, demolition equipment, waste handlers, pavers and compactors.

SMART WORKS.

PRESIDENT'S MESSAGE

Advocate for the industry for over 50 years

I am pleased to provide you this copy of the DCA 2017 Membership Directory. I hope you will find the directory a handy reference and a reliable list of professional utility, directional drilling and gas distribution contractors. I also hope you will use it as a reference of the major manufacturers and service providers in our industry.

Our mission, as quality contractors and associates, is to work together to deliver superior value to the natural gas and underground utility industry – today and in the future – as we have done since our founding in 1961. DCA encourages the healthy exchange of industry information between member contractors and suppliers.

In addition, we seek to provide the public a reasonable assurance of the skill, integrity, safety and responsibility of member contractors. DCA remains focused on superior craftsmanship and unparalleled professionalism. DCA members will continue their commitment to progress and I am confident our members will lead the way in the use of the latest techniques, equipment and technology. Our goal is to remain on the cutting edge of utility construction and directional drilling in this vibrant and changing industry.

We hope the DCA 2017 Membership Directory is your "go to" listing when you select contractors, equipment and services.

This directory is produced by Oildom Publishing Company of Texas Inc. and we owe a debt of gratitude to DCA Honorary Member, Oliver Klinger, Oildom publisher, and his staff for their dedicated effort to produce this current edition.

Dale A. Anderson
2016 DCA President

STATEMENT OF PURPOSE

Success Starts with DCA

Membership in the Distribution Contractors Association is your link to success in the gas distribution and underground utility industry. DCA maintains the reputation of a tight-knit family. DCA is a network of the best in the business, union and non-union contractors, suppliers and providers, gas distribution and other utilities. It is a gathering of quality contractors and associates working together to deliver superior value to the natural gas and underground utility industry. As such, DCA helps its members to efficiently transform their business, educate their employees on

business and safety and leave a lasting and memorable impact on the industry. Through its programs, committees and organized events, DCA offers its members professional recognition and the opportunity to serve the underground construction industry.

DCA is committed to the highest standards of excellence and leadership. It is the vital link that keeps members informed, efficient, safe and productive. Success starts with DCA. When DCA was founded in 1961, a list of purposes was defined in its bylaws that holds true today as it did when first written.

These bylaws direct the Association to:

- (a) enhance the proficiency and professionalism of members through the exchange of information.
- (b) make membership in the Association a reasonable assurance to the public, of the skill, integrity and responsibility of its members.
- (c) maintain the standards of the distribution construction business at the level necessitated by its professional character, and to establish members of the Association in the public mind as contractors who fulfill obligations in good faith.
- (d) promote cordial and cooperative relations among individuals and firms engaged in the construction of distribution pipeline, cable and duct systems.
- (e) encourage efficiency among distribution contractors and their employees, and to promote good employee and labor relationships.
- (f) establish and promote Association standards to benefit the industry and, whenever possible, strive to influence regulations and events affecting the industry.
- (g) seek correction of injurious, discriminatory and unfair business methods practiced on or against distribution contractors.
- (h) eliminate as far as possible the occurrence of injury and death to employees of distribution construction firms.

www.michels.us

As one of North America's largest contractors, we serve 10 markets through our industry-leading operations. A few of the services we provide:

- Pipeline Construction
- Gas Distribution Construction
- Facilities Construction
- Pipe Fabrication
- Horizontal Directional Drilling
- Direct Pipe®

**Working safe.
Working together.**

**These are
big shoes to fill.**

HISTORICAL INFORMATION

Distribution Contractors Association

The Distribution Contractors Association was formed in 1961 to facilitate the exchange of information related to the construction and maintenance of distribution pipeline, cable and duct systems throughout the United States. The highly technical and sometimes hazardous nature of the industry precipitated the formation of DCA and fosters its ongoing role today to promote the safety, efficiency and credibility of DCA member companies. The domain of DCA's Contractor Members is within city gates, where the final link for pipeline, cable and duct systems is made to

individual residences and industrial complexes. Associate membership in DCA is available to those organizations that provide equipment and services to the industry. Through its annual convention, mid year meeting, multiple publications and website, DCA members are kept up-to-date on environmental issues, labor relations and technological advancements. In addition, DCA members provide expert testimony to regulatory agencies, government organizations and consumer groups on the nature of the distribution construction industry.

56th Annual Convention

February 6-11, 2017
Grand Wailea Resort
Wailea, Maui, Hawaii

DCA Members and guests will be able to relax, renew acquaintances and learn about the latest trends and developments affecting the distribution construction industry at the 56th Annual DCA Convention, February 6-11, 2017. Embark on a convention like never before with 40 acres of lush tropical gardens and endless activities to choose from – the ultimate destination for an immersive Hawaiian getaway. With an endless supply of activities, adventures and excitement, there's a reason Grand Wailea is consistently ranked among the world's best resorts by leading travel consumer reports and industry peers. Convention event schedules, lodging and travel information will be mailed to DCA members and guests in the Fall of 2016. Make your plans now to attend!

Risk Management

In the excavation, around the excavation or over the excavation, we've got you covered.

PRODUCTIVITY TOOLS. SMARTER MEANS EASIER.

**ULTIMATE
CREW**
BEHIND THE JOB

"Vermeer Productivity Tools help get the job done quicker so we can move on to the next phase or head home for the day."

— Dane Thompson
Locator, B&T Drainage, Inc.

Vermeer Productivity Tools help your crew work smarter and faster. You can visually capture the jobsite over a Google Maps image, including intended bore path whiteline, pothole locations, locate positions, marked utilities and bore path as-built. Use the tools to store, retrieve and share your jobsite data — and reduce paperwork hassles. When the job is done, they make it easy to create detailed, accurate documentation to present to your customers. See how Vermeer Productivity Tools help the Ultimate Crew, B&T Drainage, take on tough jobsite challenges at bit.ly/BehindtheJob.

Visit store.vermeer.com to learn more and purchase Vermeer Productivity Tools.

AURORA™

The display with your brain in mind.

WORKING COMMITTEES

Government Relations Committee

- Charge:** Target specific regulatory and legislative items and report their findings through the legislative Watch section of the *DCA News* and DCA website. Present to the board those issues we believe our members would benefit from through advocacy for or against.
- Composition:** The Chairs of each committee are appointed by the President at the Mid Year Meeting. The Vice Chairs are appointed by the Chair at the Mid Year Meeting. The position of chair and vice chair alternate every two years between regular members and associate members. Members of the committee are self selecting, though the President can appoint members to the committee.
- Members:** Dockendorf, Steve NPL Construction Co. (Co-Chairman)
Wislowski, Dave Vermeer Corporation (Co-Chairman)

Horizontal Directional Drilling (HDD) Committee

- Charge:** To promote the use and education of horizontal directional drilling as a viable, safe and environmentally friendly construction method. This will be accomplished by supporting safety and environmental training, technical development, and good practices guidelines that sustain professional productive contractors.
- Composition:** The Chairs of each committee are appointed by the President at the Mid Year Meeting. The Vice Chairs are appointed by the Chair at the Mid Year Meeting. The position of chair and vice chair alternate every two years between regular members and associate members. Members of the committee are self-selecting, though the President can appoint members to the committee.
- Members:** Heinen, Jon Drilling Mud Direct (Chairman)
Carson, Dan Carson Corporation (Vice Chairman)

Membership Committee

- Charge:** Actively solicits and evaluates potential DCA members and make recommendations on member programs and awards to help recruit and retain members. The committee works to welcome new members through orientation at the meetings, and through a Peer Guide process by which new members are paired with an existing member to help guide them through the first year of membership.
- Composition:** The Chairs of each committee are appointed by the President at the Mid Year Meeting. The Vice Chairs are appointed by the Chair at the Mid Year Meeting. The position of chair and vice chair alternate every two years between contractor members and associate members. Members of the committee are self-selecting, though the President can appoint members to the committee.
- Members:** DeRue, Rob D.R.S. Enterprises Inc. (Chairman)
Ferrell, Woody Volvo Construction Equipment (Vice Chairman)

WORKING COMMITTEES

Safety / Risk Management Committee

- Charge:** Review all information concerning safety in the industry and safe job-site practices. Has oversight for the Arthur T. Everham Safety Award and the Annual Safety Congress.
- Composition:** The Chairs of each committee are appointed by the President at the Mid Year Meeting. The Vice Chairs are appointed by the Chair at the Mid Year Meeting. Members of the committee are self-selecting, though the President can appoint members to the committee.
- Members:** Clapper, Tom TekRock Trenching LLC (Chairman)
 Parker, Kevin Mears Group Inc. (Vice Chairman)

Education Committee

- Charge:** The education committee helps to identify topics and speakers that are of interest to DCA members. In addition, the committee helps to coordinate DCA sessions for conferences such as UCT (Underground Construction Technology) and ICUEE (International Construction Utility Equipment Expo) when requested. The education committee also considers other education opportunities beneficial to members such as the DCA & AGA Workshops and Job Fairs.
- Composition:** The Chairs of each committee are appointed by the President at the Mid Year Meeting. The Vice Chairs are appointed by the Chair at the Mid Year Meeting. The position of chair and vice chair alternate every two years between regular members and associate members. Members of the committee are self-selecting, though the President can appoint members to the committee.
- Members:** Swerdfeger, Ray K. R. Swerdfeger Construction Inc. (Chairman)
 Burris, Brad Rudd Equipment Company (Vice Chairman)

DIG IN THE RIGHT PLACE EVERY TIME

When accuracy really matters, count on McLaughlin locators to precisely verify utilities. Then reduce jobsite risk even further by potholing with the new Vermeer VX50 Vacuum Excavator by McLaughlin. It's the perfect combination to get the job done right. Every time.

DCA ADVANCEMENT FUND

The DCA and the International Union of Operating Engineers reached an agreement in June of 1999 to establish an industry advancement fund. The fund is designed to advance the interests of the distribution construction industry by:

- Establishing good public relations and market development
- Engaging in public relations and public education programs
- Negotiating fair and equitable collective bargaining agreements with representatives of employees engaged in the industry
- Encouraging and developing industry safety standards
- Providing educational opportunities for those engaged in, or connected with, the industry
- Encouraging the use of union contractors for the construction of all distribution pipelines
- Improving communications between labor and management

Trustees are:

Patrick D. Michels
Michels Corporation
Brownsville, WI

2nd Trustee TBD

LIUNA-DCA TRUST

A joint labor-management cooperative trust was established in December of 1990, under the provisions of the Taft-Hartley Act, between DCA and the Laborers' International Union of North America to:

- Improve communications
- Expand work opportunities
- Promote safe, efficient work conditions
- Sponsor seminars, conferences and meetings concerning the industry
- Facilitate a network for the exchange of information
- Resolve problems
- Advance mutual interests relating to the industry

Governing the trust is a Board of Trustees, which was appointed from labor management. The executive vice president of DCA serves as executive director of the trust. Trustee meetings are conducted on a regular basis.

The LIUNA Cooperation Trust of DCA provides financial support to the Association for use in publications, the annual convention and industry relations. Gary A. Pasternak, principal, Pasternak & Associates, P.C., Dallas, Texas, is the administrator of trust collections.

Trustees are:

Banning, Doug
Michels, Kevin
Hillebrandt, Jeff
O'Sullivan, Terry
Davis, Rocco
Healy, Terry

Miller Pipeline, Indianapolis, IN
Michels Corporation, Brownsville, WI
InterCon Construction Inc., Waunakee, WI
Laborers' International Union of N.A., Washington, DC
Laborers' International Union of N.A., Washington, DC
Laborers' International Union of N.A., Chicago, IL

UA-DCA TRUST

National Distribution Pipeline Industry
Communications & Productivity Fund

DCA and the United Association reached an agreement in November of 1990 to establish a joint labor-management cooperative trust to:

- Improve communications and the collective bargaining relationship between labor and management
- Study ways of eliminating potential problems that reduce competitiveness and inhibit the economic development of the distribution pipeline industry
- Engage in public relations and public education programs
- Research and develop programs to improve the distribution pipeline industry

The executive vice president of DCA serves as executive director of the trust to govern the fund.

The NDPIC & PF provides funding for DCA publications, the annual convention and industry relations. Gary A. Pasternak, principal, Pasternak & Associates, P.C., Dallas, Texas, is the administrator of trust collections.

Trustees are:

Dahl, Greg	ARB Inc., Lake Forest, CA
Deussenberg, Tony	Otis Eastern Service LLC, Wellsville, NY
Klumb, Rick	KS Energy Services LLC, New Berlin, WI
Mikich, Mike	United Association, Vacaville, CA
Gross, Tom	United Association, Ottawa, IL
Owen, Jeff	U.A. Local 32, Renton, WA

DCA OVERVIEW

From its inception in 1961, the Distribution Contractors Association has been committed to progress. This year, as in years past, DCA members will lead the way in the use of the latest technologies, equipment and safety standards. DCA members remain at the cutting edge of a constantly changing and vibrant industry and uphold our mission as quality contractors and associates working together to deliver superior value to the natural gas and underground utility industry.

DCA Meetings

Annual Convention (February, March)

The Annual Convention is held in a warm weather location in the U.S. or internationally and is designed for members and their spouses/guests. At this annual meeting of the membership elections for the Board are held. A key feature of the convention is the annual auction which has grown over the years and is the primary fundraiser for the operations of the DCA. The week-long event is supported through the generous sponsorship of our associate members and features outstanding speakers at business sessions, networking events and local activities. Recipients of the scholarships and the Arthur T. Everham Safety Award are announced at the convention.

The final board meeting of the outgoing president and the first board meeting of the new president are held at the convention. A Leadership Council meeting is held as are meetings of the committees. The general meeting of the membership is the DCA Town Hall where the leadership provides an update on the proceedings of the association and where the members can dialog with leadership.

Safety Congress (April)

DCA's Annual Safety Congress is a "must-attend" event for safety professionals each

year. The two-day event attracts safety professionals from across the country and industry to discuss different challenges and problems utility contractors face with projects, from creative training ideas to managing a safety culture within your company. The Safety Director of the Year and the Safety Person of the Year are awarded at the Congress.

DCA & AGA Utility Contractor Workshop (April)

Now in its fourth year, the DCA and American Gas Association (AGA) partner to produce a workshop aimed at increasing communication and cooperation between gas distribution utilities and the contractors who work for them. The 2016 event attracted some 140 attendees representing gas utilities, contractors, manufacturers, labor unions, industry experts and federal government officials.

Mid Year Meeting (July)

The Mid Year Meeting has grown over the years from a summer board meeting to a family networking event with business session speakers, committee meetings, a board meeting and leadership council meeting, as well as the DCA Town Hall. In addition to an annual golf outing, many

DCA OVERVIEW

activities are planned with DCA member families in mind.

Fall Meeting (October, November)

The Fall Meeting is a member's only event with a board meeting, leadership council meeting, committee meetings, Town Hall, business session speaker and networking social events. The Executive Finance Committee meets at this event to review the operations of the staff.

DCA Web Site

The DCA web site, www.dcaweb.org, continues to serve the organization, offering members password-protected access to member news, toolbox talks, committee updates and association newsletters. The web site offers nonmembers information about the association, its members and helpful links to a host of web sites of relevance to the distribution construction industry. The site is a state-of-the-art tool that gives access to DCA publications, members and facts with the click of a mouse. Wage rates for the Laborers' International Union of N.A. (LIUNA), the International Union of Operating Engineers (IUOE) and the United Association (UA) are all available through the password protected site of the DCA web site.

DCA-Dale R. Michels Endowed Scholarship

DCA founded the DCA-Dale R. Michels Endowed Scholarship in 1998, in memory of Honorary Member and Past President Dale R. Michels, to encourage students considering careers in construction. Michels

Corporation and others contributed significant amounts to the fund. The program is administered by the Dale R. Michels Scholarship Committee, which oversees the annual application and award process. The amount distributed to deserving candidates is based on a portion of the association's auction and investment income proceeds. To be eligible, scholarship applicants must be dependents of DCA members or member-company employees.

Applications are available in October and due back to the DCA office no later than early January. Scholarship recipients are announced at DCA's Annual Convention in February/March.

Curtis H. Allen Scholarship

The Curtis H. Allen Scholarship was formed by Bentonite Performance Minerals (BPM) in honor of the late Curtis H. Allen. BPM makes an annual contribution of \$2,500 into the fund and is matched by Distribution Contractors Association. The amount distributed to deserving candidates is based on a portion of the association's auction and investment income proceeds. This scholarship is dedicated to students going to a trade or vocational school with a focus on this industry. Two members of the selection committee come from Halliburton companies (Bentonite Performance Minerals LLC or Baroid Industrial Drilling Products) as permanent members of the committee.

Applications are available in October and due back to the DCA office no later than early January. Scholarship recipients are announced at DCA's Annual Convention in February/March.

James R. Upton Scholarship

Board of Directors annually distributes \$3,000 to provide scholarship opportunities for students of the Cherokee Nation in Tahlequah, Oklahoma in memory of former DCA Managing Director James R. Upton.

One to two scholarship recipients are selected by the Cherokee Nation, based on criteria set by them, from graduates of the Sequoyah High School in Talequah, and awarded annually.

DCA-Lyons' Grant Program

Past President and Honorary Member Bob Lyons was widely known for his commitment to community service, education, charitable causes and the DCA. Bob was instrumental in establishing the DCA Annual Auction in 1991, which to date has raised almost three million dollars for the scholarship program, the DCA Safety Congress and the association's office and staff. To give back to the association, Bob's widow, Jan Lyons, a strong DCA supporter in her own right, committed a donation from the Lyons Family Foundation of \$25,000 over a five-year period. The grants are intended to recognize leaders in service, those who positively contribute to their communities and help provide support for the missions they serve.

While there are no specific requirements for this grant, it is expected that the candidates are strong emerging and/or established community leaders and are recognized for their personal service, activism and desire to make positive change in the communities. It was Bob's vision to provide resources to those who embrace a sense of community and understand what it means to "give back". These grants,

although modest, are intended to be directed to individuals or organizations that do not receive significant financial assistance from governmental or large charitable groups. In Bob's words; "It's all about those that have been blessed with the understanding of what it is to give back."

Safety Director of the Year

The Safety Director of the Year Award recognizes the achievements of a safety director whose initiatives and programs have enhanced the overall safety program of a member's company. Award recipients also participate in DCA's Safety Congress. The annual award includes a \$1,000 cash prize.

Safety Person of the Year

The Safety Person of the Year Award is given to an individual who has gone beyond the call of duty in any area of their company. It can be a lifesaving event, monetary savings to the company, etc. The recipient can be at any level in the company and will receive a plaque and a \$1,000 cash prize.

Arthur T. Everham Safety Award

The Arthur T. Everham Safety Award, named in honor of an industry safety pioneer and DCA past president, is presented every year at the annual convention to companies with exemplary safety records and practices. Judging criteria includes: the number of OSHA lost workday cases, number of OSHA restricted duty days, number of first-aid cases, number of fatalities, the presence of a documented safety program, the use of a drug-testing program and the company's Experience Modification Rate.

Contractor Profile

The Underground Group of ARB provides all aspects of construction services for installation, replacement, repair and rehabilitation of underground pipelines and utilities with an emphasis on natural gas transmission and distribution systems. This includes: in-house horizontal directional drilling capabilities. The Industrial Group of ARB provides all aspects of plant construction services including: compressor stations, measurement stations, gas storage, power generation, refining, water and wastewater.

Typical Working Environment

Metropolitan, city and rural areas

Cross Section of Customers

Major utility, public agencies, energy, petrochemical, developers, refining and mining companies

Operating Locations

ARB operates primarily in California and the Western United States. The Primoris Services Corporation, of which ARB is a subsidiary, operates throughout the United States, and is headquartered in Dallas, Texas.

Contractor Profile

Specializing in trenchless technology, Laney Directional Drilling Co. is a leading global Horizontal Directional Drilling company. Laney is the only U.S. HDD company providing integrated engineering, design and HDD construction services. Laney specializes in servicing pipeline operating companies and pipeline contractors with long, complex, challenging, or small scale HDD requirements. No project is too big or too small. Laney assists in the installment of infrastructure such as oil and gas pipelines, telecommunications conduits, water lines, sewer lines and environmental remediation casings. Laney, known for its innovation and being a trenchless technology pioneer, is also one of a few North American companies experienced with Direct Pipe® trenchless technology. Laney operates HDD rigs from 30,000 lbs. to 1.7 million lbs, as well as a Direct Pipe thruster and steerable tunnel boring machine (TBM).

Spreads/Crews/Locations

16 directional drilling rigs, ranging from 100,000 pounds to the world's largest 1,700,000 pounds, with offices in Houston, TX.

DRILLING WITH PRIDE & EXPERIENCE

SOUTHEAST DIRECTIONAL DRILLING is a Leader in the Horizontal Directional Drilling Industry, providing specialized directional drillings services to the oil and gas, municipal water / sewer and telecom industries. We have drilled crossings all across the United States, Canada and Trinidad in all soil conditions – Dirt, Clay, Gravel and Rock. Southeast has successfully installed several hundred crossings totaling over 200 miles of HDD's, including over 40 miles of 42" pipeline crossings.

Southeast's fleet of drilling rigs range from 80,000 lbs to 1.4 million lbs of pullback capacity providing us with the ability to work on any size project from 6" to 56".

We look forward to working with you on your next project!

**YOU'RE MAKING A LIVING.
WE'RE MAKING IT EASIER.**

The Cat® 303E CR Mini Hydraulic Excavator is the machine you need for working in restricted areas and on congested job sites. With a robust compact radius design and 200-degree bucket rotation, this machine is built to handle even your most demanding application. And at the end of the job, this 60-inch wide, 7,782 lb. machine transports easily.

Caterpillar helps businesses like yours succeed every day – by ensuring you've got the right machine for the job, making parts readily available, giving you work tool attachment options and providing expert service.

Products/Services

Doosan, a strong, stable, and global company with over a 115-year legacy, has a heritage in equipment manufacturing that began in 1937. Since 2005, we've grown to become the fifth largest construction equipment manufacturer in the world. Doosan can be found in every area of the infrastructure support business, which encompasses many facets of the heavy construction equipment industry. Many contractors might be surprised to learn that, while Doosan is a relatively young brand in the North American construction equipment market, the organization has a global manufacturing history going back more than 75 years. Today, Doosan Bobcat is an industry leader in the engineering, manufacturing, and marketing of construction equipment including: skid-steer loaders, excavators, wheel loaders, articulated dump trucks, attachments, air compressors, lighting systems and generators, as well as compact construction equipment and engine power systems.

Division Offices

Doosan Portable Power

Doosan Portable Power has more than 100 years of manufacturing expertise and application experience focused on providing the highest quality machines with unrivaled customer service. The product line includes: mobile generators, compressors, lighting systems and light compaction equipment.
www.doosanportablepower.com

Bobcat Company

Bobcat Company is a leading provider of compact equipment for global construction, rental, landscaping, agriculture, grounds maintenance, government, utility, industrial and mining markets. We strive to empower our customers to do their jobs more efficiently and effectively. Products include: skid steer loaders, compact track loaders, mini track loaders, compact excavators, telehandlers, attachments and implements, utility vehicles and Toolcat utility work machines.
www.bobcat.com

Doosan Construction Equipment

Doosan machines deliver world-class quality and are built for durability, ease of maintenance, comfort and fuel efficiency. Products include articulated dump trucks, crawler excavators, log loaders, wheel excavators, wheel loaders and attachments.

Products/Services

Kirby-Smith Machinery's Pipeline Services Division is a full-service solution for pipeline contractors operating in the mainline, regional, or local pipeline construction industry. The division operates independently from our traditional territory regulations, so we can supply heavy equipment - anywhere you need machinery for your pipeline operations - with new, used, and rental options available. Whether you need excavators, dozers, loaders, cranes or specialty equipment such as pipelayers, hammers, and material handling/ lifting systems for pipe, we can help you find the best equipment solutions to maximize job site productivity. Other equipment solutions we offer include: trailers, telehandlers, cranes, boom trucks, mini dump trucks, vacuum attachments, and much more. We offer 10 full service locations to serve your needs including: Oklahoma City, Tulsa, Dallas, Fort Worth, Abilene, Amarillo, Odessa, Lubbock, St. Louis, and Kansas City.

J.C. Guettsche, Manager, Customer Service; jcg@sidebooms.com; (918) 858-4234

Products/Services

Midwestern designs and manufactures hydraulic sidebooms ranging from 10,000 to 230,000 lb (4 to 104t) lift capacity on an array of platforms, hydraulic conversion kits for mechanical pipelayers, and hydrostatic fill and test units from 350 to 1,000 ft (106 to 304 m) of head pressure. Midwestern also has one of the largest and most complete inventories of pipeline supplies. Our extensive line of coating, rock shields, anodes, insulators and other pipeline protection products includes everything you need prior to backfill.

Products/Services

Sharewell HDD is proud to be the original service provider to the HDD Industry. In business for over 30 years, the company has successfully provided guidance services and downhole drilling tools for over 4 million feet of hole around the world. Our engineers are highly trained and capable of performing everything from the simplest of road bores to the most complicated compound curves and intersects. We use the most modern tooling and software available to stay in front of the competition. Sharewell HDD has recently expanded its product offering by becoming the worldwide distributor of Smith's Gemini HDD product line of ultra-premium pilot hole bits and hole-opener cutters. Available in both milled tooth and tungsten carbide, these new products are the result of Sharewell HDD's significant underground experience

combined with the advanced technology and bit design expertise of Smith Bits.Sharewell Drilling Products is a newly formed division responsible for products like the Thunderstorm line and the soon to be released PipeVac Lifting System. Look for more groundbreaking new products to come over the next year.

Products/Services

Established in 1965, UPSCO's manufacturing, distribution and service capabilities uniquely position us as your one-stop source for utility and underground infrastructure needs through three comprehensive approaches: manufacturer of engineered piping systems, distributor of premium products and sales representative for key industry manufacturers. Experience, integrity, trust and respect allows us to bring cutting-edge technologies to the following areas: cathodic protection systems, custom fabrications, damage prevention systems, environmental solutions, equipment and tooling, horizontal directional drilling, instrumentation, keyhole technology, meter and regulation, PE piping systems, specialty products, steel and cast iron piping systems and valves.

Vacuworx is a leading global provider of vacuum lifting equipment and heavy-duty material handling solutions for the oil, gas, pipeline, utility and road construction industries. With Vacuworx systems you can load, unload and stage virtually all sizes of concrete, steel, plastic, fiberglass and cast-iron pipe with precision. Customizable for various applications with lifting capacities of 2,200 to 44,000 lb (1-20 tonne), Vacuworx systems are designed to operate in any environment – including: heat, rain, sleet or snow – with a fraction of the ground personnel required for conventional lifting methods. Vacuworx offers on-site maintenance and repairs with a full line of parts in stock and available for shipping 365 days a year. Learn more at vacuworx.com.

BUILDING. TOGETHER.

UP. LIFT.

THANKS TO YOUR INPUT, NEW L-SERIES
BACKHOES WILL RAISE YOUR EXPECTATIONS.

When our customers asked for a boost, we delivered. The new FT4-certified 310SL HL and 410L Backhoes with pressure-compensated, load-sensing hydraulics deliver improved backhoe craning capability with up to 25% more lift capacity plus an additional 10 to 15% boost in lift mode. Visit your dealer or our website to see how the full L-Series line, supported by Ultimate Uptime, can take your job to a higher level.
